There will be no May meeting this month. The City of Coral Springs will not consider opening their facilities until we are in phase 3 of reopening. Right now we are just entering phase 1.

Coral Springs Orchid Society is closely monitoring the impact of the coronavirus (COVID-19) at a global & local level for all. The safety of our members is our top priority.

We are following the guidelines of the World Health Organization (WHO), the Centers for Disease Control (CDC) and state and local authorities. We will keep you informed of any changes during this time should they arise. Mac has rescheduled for April but we will monitor this situation & keep you informed. If anyone needs anything please let Ken, Sue or Debbie know. We are your orchid family! Please stay well & we will get through this!

We hope to reschedule our speaker MAC from Mac's Orchids as soon as we get past Covid - 19

*All events below cancelled due to corona virus

June 15, 2020 - to be announced*

IT'S A
GOOD DAY
TO HAVE A
GREAT
DAY!

Our CSOS meetings as we know have been cancelled due to covid-19 but we look forward to having Mac from Mac's Orchids and his wife, Helen speak with us in the near future. We will keep you posted on rescheduling with them when we are able.

CSOS Member Linda Rose (Perky Designs)

sews face masks for our members as well as the community!

Our member Linda Rose, who custom designs dog & cat outfits (see her business card below plus in our sponsor section) decided at the start of Covid-19 decided to sew face masks. But Linda went even further to sell the face masks but to donate 100% of the proceeds to our friend Stacy who runs Get A Life Pet Rescue in Plantation, FL! Linda has made hundreds of masks & she has mailed them out all over the USA. Many of our members are enjoying her reversible, washable 3 layer masks. Thank you Linda for not only helping fulfill the needs of many but thank you especially for helping the rescues!

Linda is still busy taking with orders. Linda has some new orchid fabric arriving soon. If interested in a face mask contact Linda at perkydesign@bellsouth.net or myself.

Of course Linda is always taking orders for your doggy needs!

CSOS WAS PROUD TO SUPPORT OUR MEMEBER MONICA EASTEP TO FIND A CURE FOR MS

All That Jazz donated a percentage of evening sales to help Monica.

A personal note from Monica to CSOS

Praying that everyone is healthy and safe during this difficult time.

A big THANK YOU to my Coral Springs Orchid Society Family for supporting me and my Walk MS Team! Together we have had some fun and have made a huge impact for MS. I am sad that we didn't get to Walk together due of this virus! Please know that every donation is much appreciated. Now more than ever the funds we raise are even more important to not only find a cure but also for research to help everyone with MS deal with a virus like this and so much more. I thank you to everyone who has donated so far! With your help we have almost reached our \$10,000 goal! THANK YOU for your generosity :)

If you missed the chance to sponsor or donate, there is still time! No donation is too small and every \$ will make a difference:) - <http://main.nationalmssociety.org/goto/MonicaEastep>

Please check out our fancy Team Poster to see all of our wonderful Silver, Gold and Platinum sponsors who joined in our fight!

Special Congratulations to Bob Malloy who was the winner of our All That Jazz Give back night! It was a fun evening! Thank you to everyone who came! Hope to do it again as soon all of this craziness ends:) Stay safe and hope to see you all soon!

Bhutan discovers new orchid species

Posted on March 17, 2020

Pelden Wangmo, An orchid species, new worldwide is discovered from Trongsa by a team from Range Office, Trongsa and Bumthang Forest Division.

The new specie is named as Bulbophyllum trongsaense which is derived from the place of its origin. It is currently distributed in Trongsa & Lhuentse Dzongkhags. The species was collected on September 20, 2019 but it was concluded as a new species worldwide only this year. It has yellow with reddish-maroon spotted flowers and is found growing on trees. The identity of the plant was not known till date. As per the International Union for Conservation of Nature (IUCN) Red List categories and criteria, the species is endangered in the country. In Bhutan, the genus Bulbophyllum is represented by 36 species and with the addition, it has increased to 37 species available in the country. Bhutan is likely to harbour around 500 species of orchids as many parts of the country are still under surveyed. Discovery of such species is a clear indication that the country is rich in biodiversity and needs further exploration to have precise numbers of wild flora and fauna in the country.
